AUTODESK SAN FRANCISCO, CA

DEAR HIRING MANAGER,

I am writing to express my interest in Software Development Engineer Intern at Autodesk. I am a highly motivated computer science student with a passion for technology and programming. Having had extensive experience in designing, developing and testing large, scalable, complex systems, I am confident that my skills along with my strong academic performance make me a good fit for this opportunity.

As a Full Stack Developer intern, I gained cross-functional team experience, developed strong skills in software design and programming, and learned effective communication with technical and non-technical audiences. With expertise in developing Full Stack software applications, writing well-structured code, and managing databases, I am excited to contribute my skills to the company's Web Development projects using React and NodeJS. My mix of previous internship, school project, volunteer, and leadership experience aligns well with the internship role, and I possess excellent communication, presentation, and interpersonal skills essential for working in a team environment and fostering productive relationships.

Autodesk's reputation for delivering innovative solutions for various industries, including architecture, engineering, construction, and manufacturing, has caught my attention. Moreover, the company's collaborative and supportive culture has further fueled my interest to work with a team of skilled software developers and grow my abilities in a dynamic and fast-paced environment. With my strong analytical aptitude for problem-solving and excellent written and oral communication skills, I am confident in my ability to contribute to a company driven by innovation and pushing the limits of technology. I am excited at the prospect of working on real-world projects and fostering productive relationships with my colleagues.

Thank you for considering my application. I look forward to the opportunity to discuss my qualifications further in an interview. I believe that I can be the Software Development Engineer Intern you're looking for and welcome the opportunity to speak with you at your earliest convenience.

Sincerely,
Haris Gunasekaran
